

Printing Frames in Netscape

To print frames in Netscape Communicator or Navigator:

1. Click in the frame you wish to print. You may need to highlight some of the text.
2. Select **File → Print**.

You can also open the frame in a new window in Netscape and then print:

1. Right click in the frame you wish to print.
2. Select **Open Frame in New Window**.
3. Select **File → Print**.
